Gender: Male **Date of birth**: 10 Jan 2000 **Nationality**: Pakistani

ABOUT ME

Computer Science graduate with a strong foundation in advanced computing, analytical thinking and software engineering. Experienced in building intelligent solutions, optimizing systems and leveraging data for impactful applications. Passionate about innovation and advancing technology.

WORK EXPERIENCE

[May 2024 – Oct 2024]

Data Science Intern

Sybrid Pvt Ltd

City: Islamabad | **Country**: Pakistan

Projects

Sybrid HRBot

- Designed and implemented the frontend using React.js and integrated it with a Django backend to improve internal employee query resolution.

KissanBot

- Developed the frontend with a Flask-based dummy backend for testing, which later evolved into a commercial solution for Pakistani farmers.
- **Live**: [KissanBot](#)

AudioStream

- Created a secure audio streaming platform using Django, ensuring data security by preventing unauthorized downloads while enabling real-time audio annotation.

AgriVoice Tool

- Built an AI-powered labeling tool in Django to enhance the annotation process for audio datasets, supporting the training of KissanBot's large language model.

Data Annotation

- Contributed to the preparation and labeling of the CS North dataset, enhancing AI model accuracy and efficiency.

ToonCrafter Model

- Evaluated and tested stable diffusion-based AI for generating animated video frames from children's storybook illustrations, leading to the production of short animated videos.

[Jun 2023 – Nov 2023]

Software Engineering Intern

Daxno Technologies

City: Rawalpindi | **Country**: Pakistan

- Researched, developed, and prototyped new product ideas using Flutter and AI recommendations.
- Designed and optimized scalable software architectures for performance and reliability.
- Integrated emerging technologies for intelligent automation.
- Enhanced eCommerce app recommendations with AI, improving user engagement.

[Jun 2022 – Jun 2023]

Freelance Programmer (Level 2 Seller)

Fiverr

City: Remotely

- Developed JavaScript, Python, C and C++ projects for over 70 clients.
- Provided efficient and tailored solutions while meeting deadlines.

[Sep 2022 – May 2023]

Machine Learning Intern

Center of Excellence in Artificial Intelligence

City: Islamabad | **Country**: Pakistan

- Designed and implemented an audio classification model for a government organization.
- Optimized model performance for enhanced efficiency and reliability.

EDUCATION AND TRAINING

[1 Mar 2021 – 6 Mar 2025]

Bachelor of Science in Computer Science

Bahria University

City: Islamabad |

[1 Sep 2017 – 24 Aug 2020]

Bachelor of Commerce

Riphah International University

City: Islamabad | Country: Pakistan |

[1 Sep 2015 – 12 Sep 2017]

Board of Intermediate and Secondary Education (Intermediate)

Superior College of Commerce for Boys Jauharabad

City: Khushab | Country: Pakistan | Field(s) of study: Pre-Engineering

LANGUAGE SKILLS

Mother tongue(s): Urdu **Other language(s):** Punjabi , English

DIGITAL SKILLS

My Digital Skills

Programming Languages & Development

Python | C/C++ | JavaScript | Dart | Django | Flask | Scrapy | GraphQL | Celery | Kotlin
| Redis | FastAPI

Machine Learning & Data Science

Scikit-learn | TensorFlow | PyTorch | Hugging Face | SQL | Matplotlib | NumPy | SpaCy
| NLTK | SciPy | Pandas | YOLO | Seaborn | OpenCV | Cypher GraphQL

Cloud & DevOps

Git/GitHub | Docker | Cloudflare | Vercel | Jupyter Notebook | Linux

CERTIFICATIONS / SHORT COURSES

[26 Mar 2025]

Google AI Essentials Course - Coursera

Developed a strong foundation in AI and machine learning, exploring key concepts and practical applications.

[1 Mar 2025]

Introduction to Neural Networks and Deep Learning Course - Great Learning Academy

Learned fundamentals of neural networks, deep learning architectures, and model optimization techniques.

[17 Aug 2023]

Introduction to Cloud Computing Course - Coursera

Explored cloud computing fundamentals, including architecture, deployment models and key services.

[21 Mar 2023]

Flutter Bootcamp - Google Developer Student Clubs

Completed a 7-day Flutter bootcamp, focusing on UI, state management and backend integration.

[25 Sep 2022]

Python Data Fundamentals Course - DataCamp

Learned data handling in Python, covering manipulation, analysis and visualization.

[28 Aug 2022]

Introduction to Python Course - DataCamp

Covered Python basics, including syntax, data types and core concepts.

HONOURS AND AWARDS

[2023]

Certificate of Achievement

Awarding institution: Fast NU

Recognized for outstanding performance and contributions at NaSCon'23.

[2023]

Certificate of Appreciation

Awarding institution: Bahria University

Awarded 1st place for an exceptional project at Project Gala 2023.

Awarded this certificate for securing 1st place in a speed programming competition.

PROJECTS

StockGenie (Final Year Project)

Duration: 1 year

- Developed an intelligent stock trading web app using React, Django and PostgreSQL, with AI-driven stock forecasting and automated trading.
- Integrated FinBERT for sentiment analysis and used Redis and Celery for efficient task processing, featuring real-time market data and portfolio management.

Global Talk

Duration: 6 months

- Developed a multilingual chat app using Flutter, Python and Firebase for messaging.
- Integrated an NLP-based translation model for seamless text and audio conversion between English and German.

Crop Recommendation System

Duration: 3 months

- Designed a crop recommendation system leveraging decision trees and random forests for predictive analysis.
- Built with Python and Streamlit to provide accurate and accessible crop suggestions.

Resume Analyzer

Duration: 3 months

- Developed a CV analysis tool utilizing NLP techniques and machine learning for resume evaluation.
- Implemented cosine similarity for efficient skill matching and candidate assessment.

Mobile Game App

Duration: 3 months

- Built a mobile game app using Flutter, featuring the Knapsack Game and Six-Knight Puzzle.
- Designed an interactive and engaging user experience with smooth gameplay mechanics.

Data Analytics Project: Worldwide Traders

Duration: 1 week

- Analyzed the Worldwide Traders dataset to extract insights and trends.
- Developed interactive dashboards using data visualization tools for making better decisions.

VOLUNTEERING

Volunteer IT Manager RMCAANA (Rawalpindi Medical College Alumni Association of North America)

Oversee website maintenance and the membership portal for RMCAANA while assisting with healthcare support initiatives for government hospitals and medical students in Pakistan.

Environmental Volunteer Bahria University Anti-Littering Campaigns

Joined anti-littering and clean-up initiatives to promote environmental awareness.

HOBBIES AND INTERESTS

Book Reading | Gym & Fitness | Robotics | Swimming | Volunteering | Watching Movies & TV Series
